ABOUT LEGS FOR LINDSEY

Lindsey Anne Hanebury was born with Down Syndrome in 1984. At the age of two, she began participating in the program at Sebastian Riding Associates (SRA) to aid in strengthening her low muscle tone. Admiring horses from afar, we didn't realize the tremendous impact these animals would have on Lindsey's health and well being. Over the years Lindsey's love for horses grew beyond what we had imagined and she continued to ride for 17 years and involved her family. Lindsey developed Leukemia and despite her courageous battle, we tragically lost her in October 2004 at the age of 19. Her legacy lives on in the people who knew and loved her.

Knowing we wanted to commemorate Lindsey's extraordinary life, with the help of closest friends the idea of Legs for Lindsey came to life. Although Lindsey was involved in many programs, SRA made the most significant impact on her life and therefore became the beneficiary of the race proceeds.

SRA is a non-profit, equine assisted learning and therapy program offering therapeutic riding, driving and hippotherapy for children and adults living with a wide range of physical, mental & emotional disabilities. The focus of the program is a safe, fun and healthy approach to growth and rehabilitation through equine activities and riding. The program supports over 250 riders interacting with 18 horses, a staff of instructors, physical and occupational therapists, and a dedicated team of volunteers.
